

To Whom It May Concern,

About 5 years ago I was in the need of someone to help me and my family buy and install some new computers for my home. A lawyer friend of mine recommended that I call Jeff Platt to help me out. This was one of the best decisions I ever made!! He has helped us over the past few years with any computer problem we may have...big or small. We have 5 computers in our home and he services all of them. I have given his number to other friends and family who now all use his services. He is priceless and always comes with a smile. No problem is too big or too small. We couldn't live without him!!
