To Whom It May Concern:

We are confident in our recommendation of Graphical Interface for all your company's computer needs.

We are a small business of 15 employees, but we have never been treated like a small account by Graphical Interface. They are always very quick to respond and work efficiently to complete any work needed.

Our business depends heavily on the use of our server and network and Graphical Interface keeps us up and running in top-notch form. Their employees are friendly and helpful and we enjoy working with them.

Sincerely,

Joe Grande  
Vice President  
Communication Graphics
