RE: GRAPHICAL INTERFACE

Dear Jeff:

I would like to thank you for the professional services you provided to us in regard to the acquisition and installation of our new computer system. The hardware and software that you recommended perform our business and legal applications efficiently. We did not purchase equipment that was unnecessary for our operations. Our work stations are user friendly and our staff finds them to be a great improvement over our previous equipment. Your follow up service and technical support have reduced our down time to a minimum. It would be my pleasure to recommend you to anyone interested in a technology upgrade or network system installation. Thank you for your attention to our needs.

Very truly yours,

HENRY L. DONER
