Dear Jeff,

I want to thank you for all of your help in setting up my office computer system. It is nice to finally get our system working efficiently and properly. Your solutions to my system's problems provided us with an affordable and manageable program to update our network. You and your staff were able to implement these changes without any down time to our production, which was invaluable to us. Your post-installation support has been excellent, with many of our minor problems solved with a quick phone call. I will not hesitate to recommend your services to my colleagues. Graphical Interface is clearly the top company in the computer installation/servicing community!

Yours truly,

Marc Dubner, D.M.D.
