To Whom it May Concern:

Graphical Interface has been working with us for over a year, both on our physical set-up and our software needs.

We are rather unique in that our offices, warehouse and retail outlet are spread out in 6 buildings over a space of 350 acres. Graphical Interface found a way, using both wireless and fiber optics to allow us to work together using just one server - an issue that two other companies that we had previously employed were unable to accomplish.

Graphical's employees are pleasant, knowledgeable and quick to respond to any problems that we are having. I would not hesitate to give them our highest recommendations. Please feel free to call if you have any questions.

Very truly yours,

Carolyn B. Schiller
