

Dear Potential Clients,

I am writing this letter to those of you looking for an important piece to your business puzzle. Jeff Platt has been the missing piece for us...fitting right in where we need him!

We are a startup dental practice with many IT needs and questions. We are not *completely* computer illiterate, but let's face it, unless it's your job, you don't know it all! Jeff treats my Team with patience, respect and actually LISTENS to our problem. He has even given us suggestions to make our lives easier and streamline and secure our daily operations.

I have never had difficulty getting in touch with Jeff or any other knowledgeable GI Team member for assistance. In fact, they are the easiest vendor I deal with because Jeff makes us feel like we are his only client.

My faith in real customer service has been restored by my experience with Jeff Platt and Graphical Interface. He shares many of the same ideals from which we are building our practice, above all is *service to the client*. I would highly recommend their services to any office and welcome the opportunity to talk to anyone who may read this letter personally.

Sincerely,

Stefanie Gross

Practice Manager
