

4/23/08

Dear Jeff,

Komfort & Kare knew how we wanted to share company-wide information but didn't know to use technology to our advantage. Graphical Interface not only translated our business requirements into logical, productive solutions, but also provided us step-by-step instructions that allows our own staff to perform simple tasks, like adding printers or setting up networked stations. Graphical Interface's knowledgeable staff and pragmatic approach to our needs has helped Komfort & Kare to be more a productive and organized organization.

Thank you!

Sincerely,

Seth Auerbach  
President  
Komfort & Kare
