Jeff Platt
Graphical Interface
211 Park Place
Marlton, NJ 08053

Dear Jeff,

I want to thank you for helping to get my new office wired and working. With your guidance, I now have 6 functional computers all intra connected and multitasking. I appreciate how you were able to update all of the computers and have them run at an optimum speed.

It is hard to believe that it was over 10 years ago when you saw one of my poorly made flyers and convinced me that you could do better. From that freelance work through the development of Graphical Interface you have always been a phone call away for any computer related help that I needed. You have not only serviced my office computers, but my home computers as well. Whether it was a virus attack or a software question, you were readily available with advice and appropriate action when necessary.

It is a good feeling when you can rely on someone to take care of a problem. You seem to do it without hesitation and always with excellent results. Again, I thank you for the attention you gave my new office and me personally through all these years.

Sincerely,

JEFFREY BROSO F O.D.
President
