

**RUOFF & SONS, INC.** *PRECISION CNC MACHINING*

---

3-20-07

We have been using the services of Graphical Interface for the past four years and have been very pleased with their know how on major or minor jobs. They are very quick to resolve any problems and get you back up and running in minimal time. They have taken care of us for hardware problems, application problems and upgrades on servers and multiple work stations.

I would highly recommend their services to anyone!

Steve Ruoff
