Dear Jeff:

Now that my new office has had a chance to let the dust settle a little, we want to take this opportunity to thank you and your staff for your exceptional services.

I have had the privilege of working with you for about 10 years. When it came time to hang my own shingle recently, my office called upon you to set up our network, order and install our server, and establish a remote connection so we could work from home. You acted quickly to get us up and running. You were able to tailor our system to our unique needs.

Again, thanks for all your help!

Very truly yours,

ERIC G. ZAJAC
